

**SMARTLINE**  
OKOUME PLYWOOD

wood products **bbi**

**AN ECONOMICAL OKOUME PLYWOOD WITH ATTRACTIVE FACES**

**A POPULAR CHOICE FOR USE IN LININGS, FURNITURE AND JOINERY**

**AVAILABLE IN A WIDE SELECTION OF THICKNESSES**

**TAKES KNOCKS WELL AND CAN BE FINISHED WITH STAIN,  
POLYURETHANE, OIL OR PAINT**

**SMARTLINE** is a popular part of bbi's range of domestic and imported plywood. It has attractive faces, making it an excellent choice for internal linings and joinery.

The bbi plywood range is one of the most comprehensive in New Zealand. Together with SmartLine, the range covers uses from general construction and form work to joinery and lining.

#### **SMARTLINE OKOUME VENEER WITH POPLAR CORE**

This popular and economical lining ply has an attractive face. The Okoume hardwood veneer is pressed onto a poplar core giving it an appealing appearance while keeping the cost of the product to an affordable level.

- Cost-effective interior lining solution – no stopping or sanding required
- Pre-sanded faces take stain, polyurethane, oil and paint well
- Strong enough to hang shelving, tools and bicycles and takes knocks well

These qualities make SmartLine Okoume Veneer Poplar Core ideal for industrial buildings and garages.

Note: This product is manufactured using E1 internal grade glues and is untreated, limiting it to interior and non-structural uses. For joinery and higher spec requirements, such as internal wall and ceiling linings in residential homes, we recommend our Premium SmartLine.

SHEET SIZE	THICKNESS
2400 mm x 1200 mm	4/6/9/12/17 mm
2700 mm x 1200 mm	9 mm

#### **PREMIUM SMARTLINE OKOUME VENEER WITH HARDWOOD CORE**

This high-grade plywood with a superior B face and hardwood core is manufactured using phenolic E0 glue. It is a high-quality ply that is suitable for internal linings and joinery.

- Stable and flat with an attractive grain
- Takes stain, polyurethane, oil and paint well
- Can be V-grooved to give a tongue and grooved look

These qualities make Premium SmartLine Okoume Veneer Hardwood Core ideal for joinery, furniture, shop fit outs and interior wall and ceiling linings. It is also good for ply substrate under solid timber flooring.

Note: This product is limited to non-structural applications. It is an untreated product and while it is more durable than untreated pine, it is not suitable for cladding or external use.

SHEET SIZE	THICKNESS
2400 mm x 1200 mm	6/9/12 mm
2440 mm x 1220 mm	18/21/25/30/40 mm
2700 mm x 1200 mm	12 mm
3100 mm x 1530 mm	12/17 mm
